

Federico del Rincon

Semi-Senior Full Stack Developer - React / Next.js / TypeScript / Node.js

delrincon@gmail.com | linkedin.com/in/federico-del-rincon | portfolio-fdr-react.vercel.app | Córdoba, Argentina

PROFESSIONAL SUMMARY

Semi-Senior Full Stack Developer with 3+ years of experience building scalable, secure, and high-performance web applications. Strong frontend focus (React / Next.js / TypeScript) backed by solid fullstack capability - third-party integrations, multi-tenant architectures, and role-based access. Passionate about clean code, problem-solving, and collaborative environments with continuous learning.

Strong UX/product sense - I translate vague stakeholder asks into shippable features and think about ripple effects before writing code. Founder and sole builder of **odonto.ar**, a 17-module multi-tenant dental SaaS shipped in 4 months part-time. Mature AI-assisted workflow (Claude Code, Cursor, Codex): plan-first, architecturally-steered, not prompt-and-pray.
